

PREPARE YOUR ORGANIZATION FOR THE ERA OF GENERATIVE AI

Clear Concepts Implementation Package: Microsoft 365 Copilot

Microsoft Copilot for Microsoft 365 combines the power of large language models (LLMs) with your organization's data – all in the flow of work – to turn your words into one of the most powerful productivity tools on the planet.

It works alongside popular Microsoft 365 apps such as Word, Excel, PowerPoint, Outlook, Teams, and more. Microsoft Copilot for Microsoft 365 provides real-time intelligent assistance, enabling users to enhance their creativity, productivity, and skills.

Delivering Successful Microsoft 365 Copilot Adoption

Whether you have decided to purchase Microsoft 365 Copilot for all or a select group of your employees, this package has been designed to streamline the integration of Microsoft 365 Copilot into your organization. Our service includes a thorough technical readiness assessment, personalized end-user training programs, and robust security controls to ensure a seamless and secure adoption. With our expert guidance, your organization can leverage the full potential of Microsoft 365 Copilot sooner.

This engagement is conducted remotely over an eight-week period and provides:
